Hey Bill,

Have you talked with Brock about the upcoming PPA? I did not talk with Nancy so I'm not sure if ADEC is taking a first stab or we are supposed to. Let me know if you know, thanks.

All,
Attached is last year's PPA in Word. It will be easier to use this version to make edits.

Subject: SFY15 AKPPA development - call for language

All,

It is that time of year again, to begin building the next AK PPA. The PPA can be a good vehicle to ensure that the State of Alaska is familiar with your program's NPM guidance, programmatic commitments, and other important performance measures. In particular, Region 10 programs may wish to address high priority commitments that your program makes to HQ, and specifically that portion of which your program anticipates support or production from the State of Alaska to accomplish.

In order to help prepare initial language for the SFY15 PPA [1 July 2014 – 30 June 2015] I have attached the AK SFY14 PPA for your reference.

The goal is to develop SFY15 PPA language that will provide vision for implementing State and Federal environmental programs in the State of Alaska.

Please send the first draft of all program language that you would like to see included in the SFY15 Alaska PPA to me by COB 18 April 2014.

DEC is initiating this same request to their program managers today.

The plan is to compile all first draft language into the first draft of the PPA and to get the first draft of the PPA out to both Region 10 and DEC by 28 April.

From past PPA development history, the earlier and more often that you engage with your State of Alaska programmatic counterparts to develop PPA language the better.

Please call if you have any questions.

Ken
